

# ABOUT US

**WFR Medical Supplies Sdn Bhd** is a professional supplier of medical equipment. Always adhere to the "Your complete satisfaction" principle

Early 1998 in mainland China WFR for the first time, has been to service and professional customers "Your complete satisfaction." After nineteen years of unremitting efforts, we in the medical clinical testing equipment and medical imaging equipment research and development, production, sales and after-sales service has accumulated rich experience. This will provide you with a better service guarantee.

Today, WFR has sole proprietorship in mainland China, Hong Kong and Malaysia. WFR's new R & D centers and companies in the United States are also about to start operating. As a medical group, we have a number of medical laboratory investment and ownership, product manufacturers, all of our products are CE and ISO certification. Some products are approved by the FDA. We have an experienced team of engineers. We provide 360/24 all-weather sales and repair services to customers around the world.

We believe that choosing us is your best decision. Because you will get the highest quality, the lowest price, the most timely after-sales service.

The background of the page is a light blue gradient. On the left side, there is a vertical column of molecular structures. These structures consist of interconnected circles of various sizes, representing atoms, and lines representing chemical bonds. Some structures are solid, while others are dashed, suggesting different states or types of molecules. The overall aesthetic is clean and scientific.

Automatic Chemistry Analyzer

## F-120

The only one Automatic Chemistry Analyzer applicable for small privately owned hospital, Blood test laboratory and clinic

world smaller Automatic Chemistry Analyzer

Internal printer, One button to test

Touch screen, Internal operating system

Suitable for clinics and emergency rooms.

### Product Features

- Fully Auto Mini Chemistry Analyzer
- Discrete / random access
- STAT sample priority
- Easy to use
- User friendly interface
- Internal thermal printer
- Direct print report
- All-in-one machine

### Reaction/ Reagent/ Sample Handling

- 81 cuvettes
- 27 positions for sample and
- 54 positions for reagent
- 27 bottles with volume of 8ml
- 27 bottles with volume of 24ml
- Liquid level detection
- Collision protection
- High pressure water flush interior the probe
- Carry-over <0.1%

### Working Conditions

- Temperature : 10°C ~ 30°C
- Humidity : <85%
- Power Supply : 100~240V  
50/60Hz

## F-180

- Discrete, random access, fully automated
- Up to constant 180 tests per hour
- Optional for external bar code reader
- 30 positions for samples and 60 positions for reagents
- Automatic probe cleaning, liquid level detection, collision protection
- Reversed optic system with 8 wavelengths
- Refrigerated reagent and sample compartment

## F-300

- Discrete, random access, fully automated
- Up to constant 300 tests per hour
- Optional for external bar code reader
- 120 positions for samples and 80 positions for reagents
- Automatic probe cleaning, liquid level detection, collision protection
- Reversed optic system with 8 wavelengths
- Refrigerated reagent and sample compartment

## W-3000

- Dengue fever (mosquito disease)  
Excellent lot PLT measurement linearity for effective screening dengue fever
- Provide various anemia indications  
Normocytic and normochromic anemia  
Microcytic and normochromic anemia  
Microcytic hypochromic anemia  
Microcytic anemia
- Loan - and - go operation  
Even maintenance is push-button for increased staff productivity
- Small sample size  
Venous blood 20ul, Prediluted 10ul
- Flexibility  
The analyzer supports most commonly available EDTA tubes
- One - minute results  
Share CBC results with clients before they leave the clinic.

## W-200 Urine Analyzer

- Test items:  
Leukocytes, Nitrite, Urobilinogen, Protein, pH, Blood, Specific Gravity, VC, Ketone, Bilirubin, Glucose, Micro Albumin.
- Test Principle:  
Photoelectric colormetric (super-high luminosity cold light source reflection testing principle.)
- Visible wavelength:  
All the visible wavelengths
- Strips:  
Wancheng 11-III, H11-MA, H12-MA
- Display screen:  
5.6 inch (touching) color LCD screen
- Test speed:  
Single test: 60 test/ hour, consecutive test: 120test/ hour (optional)
- Memory:  
1000 result, including time and patient ID
- Data Communication Interface baud rate:  
between 1200 and 115200 bps
